TIMEPILOT ®

Why Extreme Blue Enhanced?

The money savings:

➤ **No more estimating (or guessing!) workers' hours.**

➤ **Eliminates math errors when calculating time.**

The time savings:

➤ **Employees clock in right on site.**
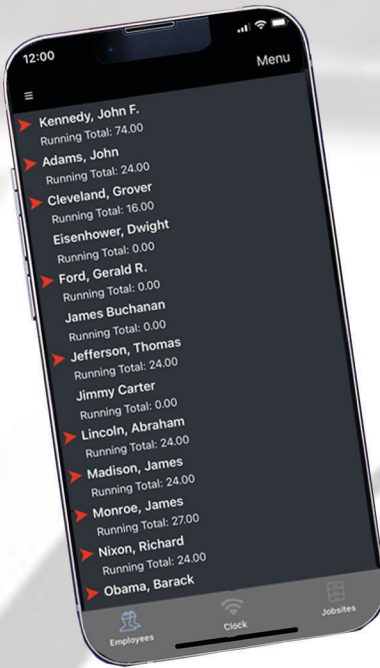

➤ **Payroll prep takes minutes, not hours.**

The bottom line:

➤ **Pays for itself in just weeks!**

Designed and built in USA

Extreme Blue Enhanced: Cloud Edition
Weatherproof and linebacker-tough

Managers can access data wherever there's an internet connection

The Clock

➤ Rugged construction; handles rain, snow, cold, heat, dust, etc.

➤ Employees clock in by tapping their iButton.

➤ Each clock handles up to 2,000 employees.

➤ Powered by 4 AA batteries that last a year.

Clocking in after a blizzard.

Cloud Edition benefits:

➤ Your clock-in/clock-out database resides in the Cloud, protected from hackers and backed up automatically. Don't worry about a hard drive crash!

➤ Includes free unlimited installations of TimePilot Mobile, which allows employees to clock in on their smartphones, and TimePilot PC, a software-only desktop time clock.

➤ Unlimited phone and email support for as long as you use the system.

What's an iButton?

It's a key-sized, rugged identification device that is unaffected by water and most chemicals. iButtons are more reliable than biometrics for identifying individuals and can be reassigned quickly and securely. This product comes with 10 iButtons. More are available: It can handle up to 2,000!

How does it work?

1 Employees clock in or out with just a tap of their iButton.

2 Download data to your smartphone, make any corrections, then upload it to your Cloud database.

3 TimePilot 5 software on your PC accesses the data in the Cloud, creates reports and exports to payroll services or software.

Extreme Blue clocks are a one-time purchase. TimePilot Cloud Edition—database, software & smartphone apps—is offered by subscription.
