

Why Extreme Blue II?

The money savings:

- No more estimating (or guessing!) workers' hours.
- Eliminates math errors when calculating time.

The time savings:

- Payroll prep takes minutes, not hours.

The bottom line:

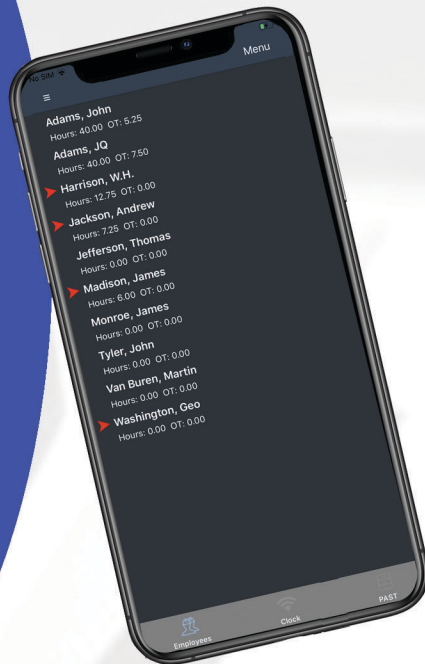

- Extreme Blue II pays for itself in just weeks!

Built in USA

TimePilot Extreme Blue II: Weatherproof and linebacker-tough Electronic time clock downloads employee hours right to your smartphone!

The Clock

- Rugged construction; handles rain, snow, cold, heat, dust, etc.
- Holds 12,000 clock-ins and clock-outs; accommodates up to 2,000 employees.
- Powered by 4 AA batteries that last a year. No cabling needed.
- Locks to a steel mounting plate to prevent theft.

The App

- Wirelessly downloads the data collected by one or more clocks to your iPhone® or Android™ smartphone.
- Calculates your employees' hours—including OT—right on your smartphone.
- **Creating reports? Multiple worksites?** Upgrade to **Extreme Blue II Enhanced!** It adds PC software to manage data collected by all your smartphones. The TimePilot App transmits data from the clocks to your PC.

How does it work?

Employees clock in or out with just a tap of their iButton.

When it's time for payroll, use your smartphone to collect the data via Bluetooth.

Our smartphone app calculates employee work hours right on your phone.

What's an iButton?

It's a key-sized, rugged identification device that is unaffected by water and most chemicals and comes with a lifetime warranty. iButtons are more reliable than biometrics for identifying individuals and can be reassigned quickly and securely.

The Extreme Blue II time clock system is designed and built by TimePilot in the USA
